Clients who have utilized floating accommodations

DISASTER RELIEF & HUMANITARIAN AID

CONSTRUCTION & INFRASTRUCTURE

MILITARY TRAINING

Practical Uses for Floating Hotels

- Temporary workforce
- Evacuation/medical support/supplies
- Equipment & maintenance (Ro-Ro ferry with car deck)
- Housing without construction time/expense
- When quick mobilization is required

Types of Vessels

- Ferries
- Passenger ships
- Accommodation barges
- Offshore support vessels

Self-Contained Infrastructure

Multi-Use Cabin & Meeting Space

- Versatile onboard spaces
- Classrooms, briefing/meeting rooms, gathering spaces, offices, etc.

Off-Duty Time

- Fitness center
- Bars & lounges
- Open deck space / pool
- Cinema
- Internet access

Infrastructure Considerations

- Fuel, food, water, waste disposal
- Use of existing or installation of temporary dock
- Water depth to accommodate average vessel draft of 5-6 meters
- Weather, tidal study, etc.
- Satellite internet

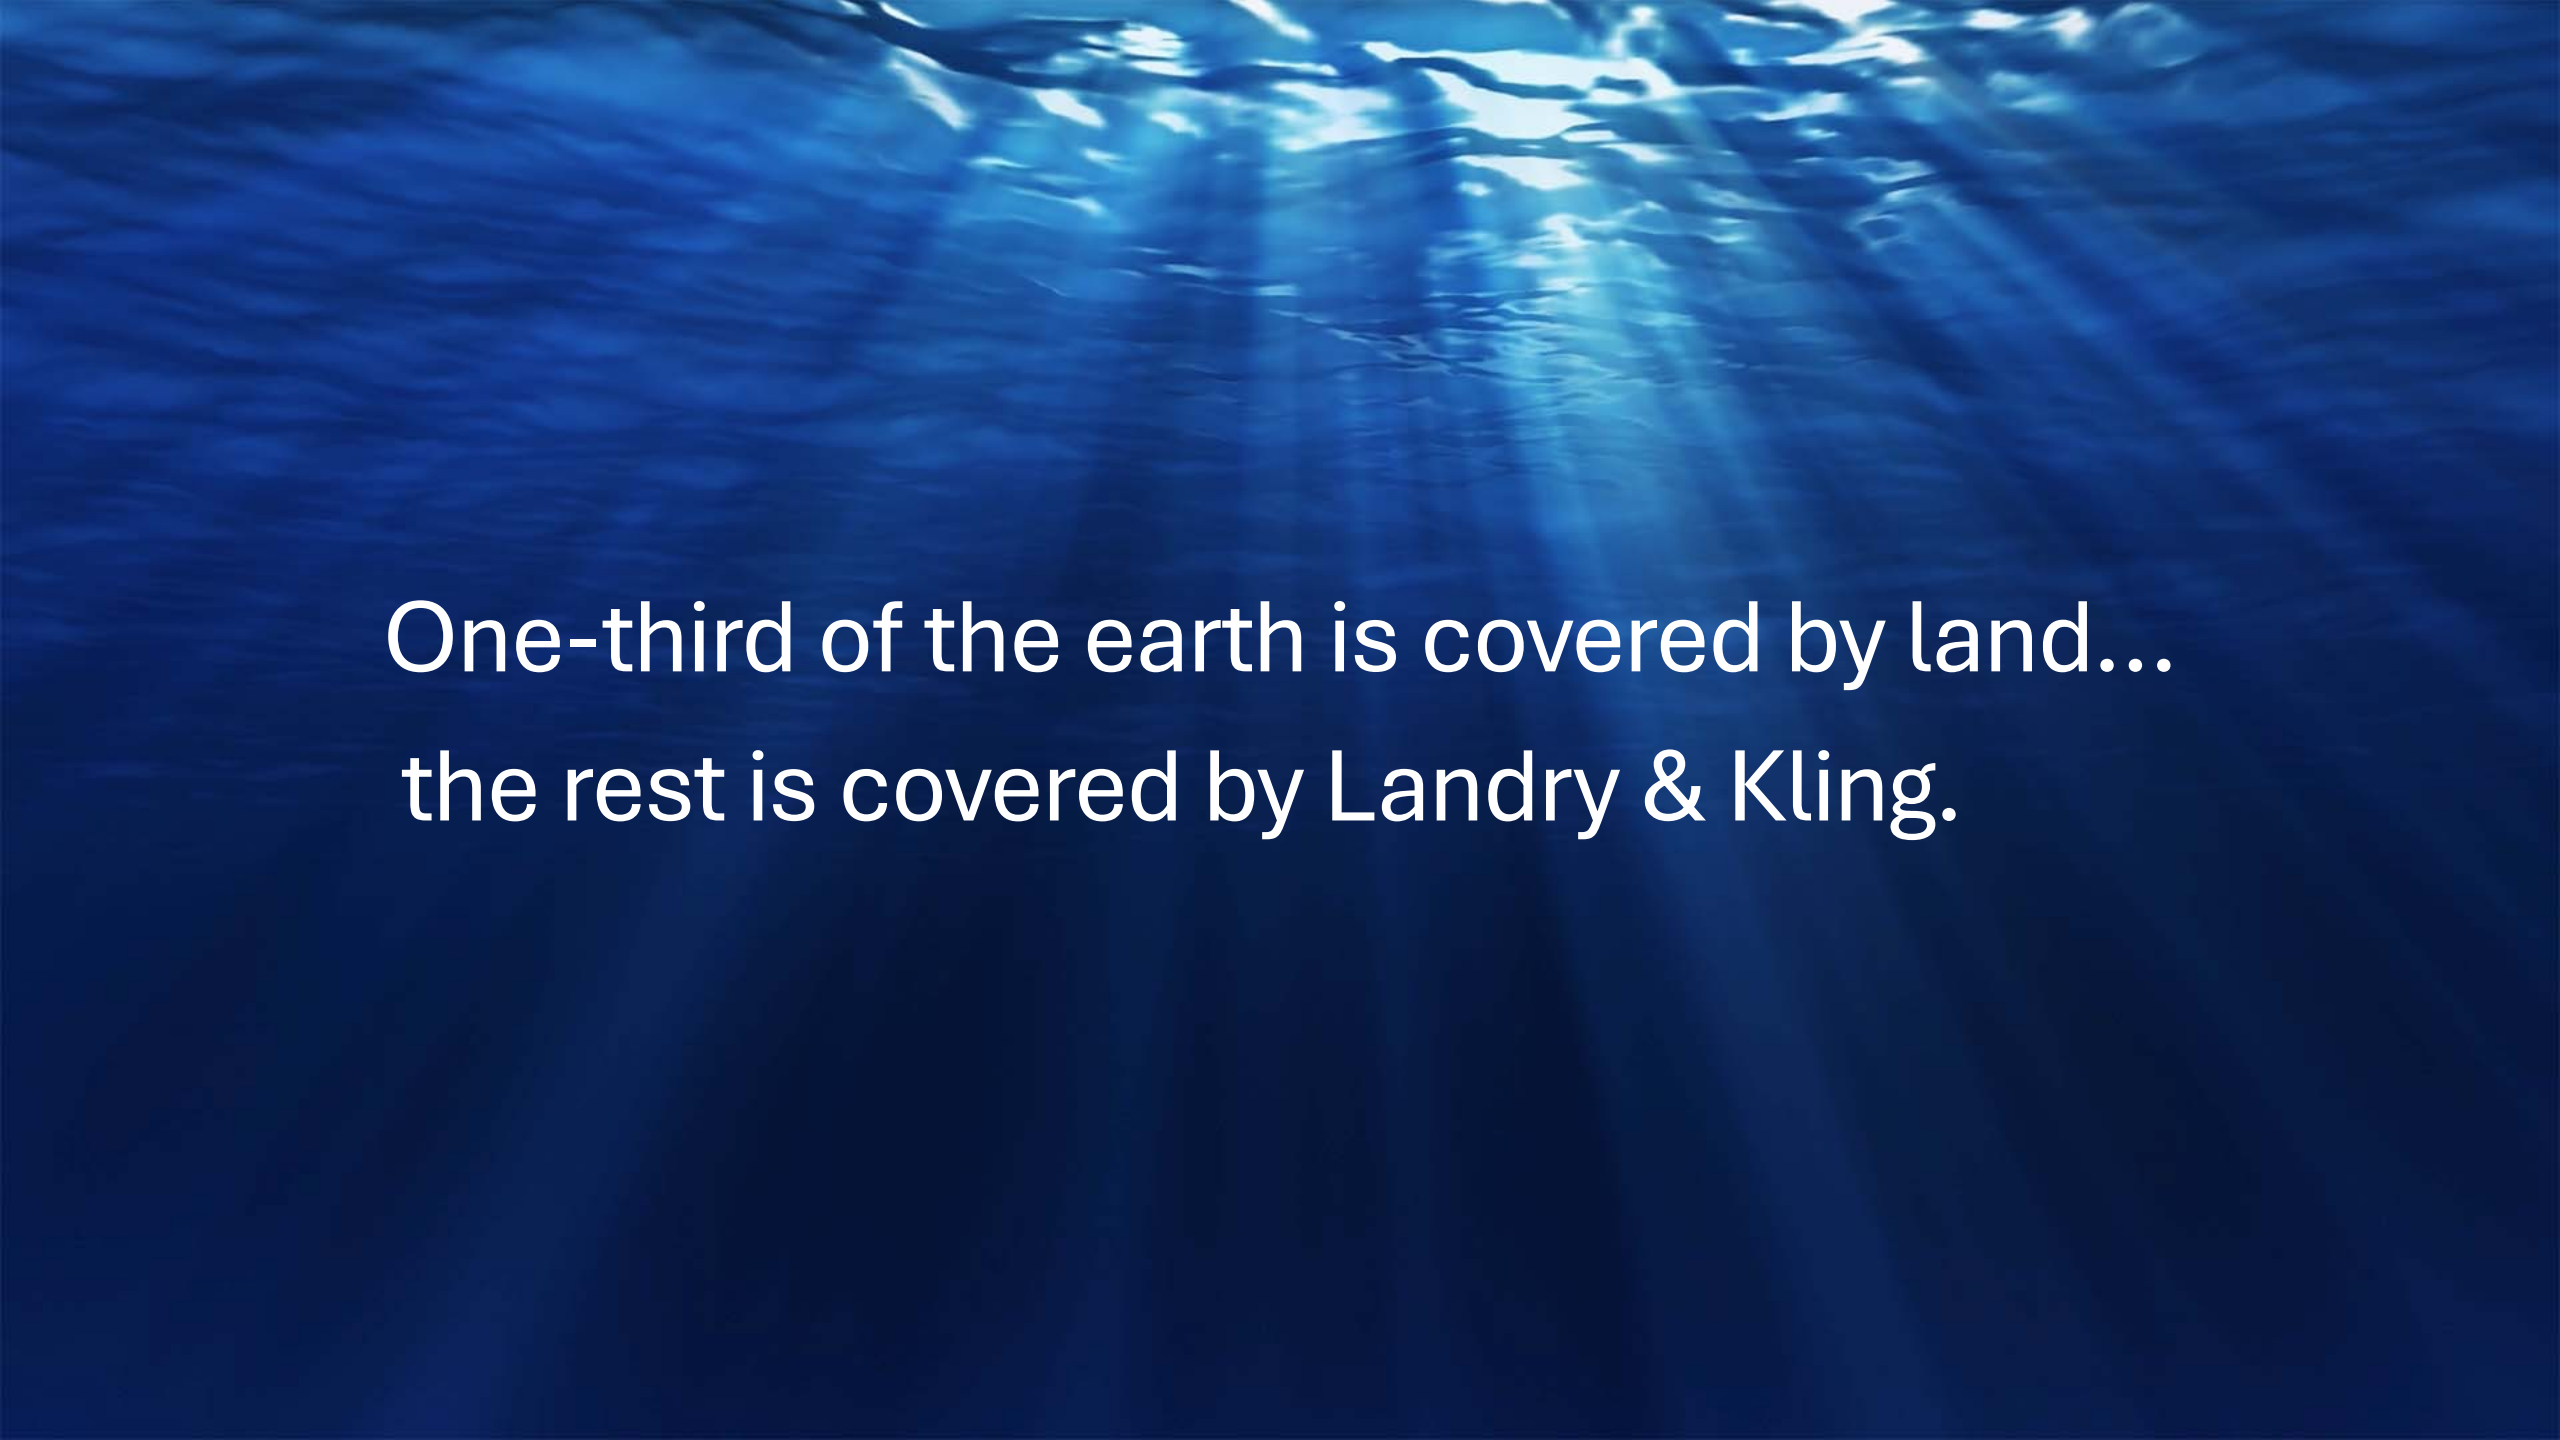

L&K Logistics

- Site survey
- Vessel recommendation & procurement
- Contract negotiations
- On-site project management
- Provisioning
- Coordination of other vendors (medical, security, catering)
- Housing management
- Reporting

Green Vessel Operations

- Shore power
- Sustainability-focused vendors
- Low-sulfur fuels

An underwater photograph showing sunlight rays filtering through the water surface, creating a serene blue background. The rays are visible as bright, diagonal beams of light against the darker blue water.

One-third of the earth is covered by land...
the rest is covered by Landry & Kling.
