International SOS Core Services

Global Assistance and Aeromedical Services

- We deliver circa 10,000 medical flights per year supporting staff in thousands of corporations around the world.

- Our 27 Assistance Centers coordinate medical cases, movement, logistics and security 24/7, networked through a common operating platform our TravelTracker App.

- We regularly coordinate large scale medical and noncombatant evacuations

- We respond to around 5 Million individual calls for assistance each year

Design, Build, Deploy and Operate Remote Medical Facilities

- Our facilities can be rapidly deployable mobile, moveable, air-portable or permanent, as required

- We support Military, Humanitarian, Government or Civilian missions, providing preparedness, readiness, and response.

- Our facilities are always integrated into our global Aeromedical services allowing seamless movement of patients.

- We provide medical support to assist responses to refugee and migrant communities around the world, including the USA.

Medical Training Services

- We train circa +14,000 clinicians and first responders annually

- We train Military, Government Health Service and civilian medical professionals and those who need medical training.

- We have a dedicated curriculum development team

- We provide specialist training for example for CBRNE, Aeromedical Evacuation Teams, and first responders

Global Procurement Of Medical Equipment and Supplies

- From our global fulfillment centers we provide global freight forwarding and in country distribution including cold chain & regulatory compliance.

- We offer large volume sourcing options in multiple countries to FDA, EU or WHO standard pharmaceuticals

- We procure, install, commission, calibrate and give training on medical equipment globally.

- We provide data analytics, reporting and supply chain visibility.

Other Supporting Medical Services

Health and Security Consulting

- We provide health consultancy, security reports and audit services to 1,000's of clients annually, including USG.

Ambulance Services

- We provide armored and non - armored ground ambulance and rotary services in remote sites

Recruitment

- We recruit and place 1,000's medical staff every year around the world.

Global Health Initiatives

- Global health campaigns can support health security and soft power initiatives

Proprietary and Confidential

A fully integrated Global Crisis Response capability

Intl. SOS Proprietary and Confidential

GOVERNMENT SECTOR SUPPORT

WE SUPPORT OVER 12,000 ORGANISATIONS GLOBALLY:

- Over **250** government and inter-government agencies trust us to provide health and security services.

AN ESTABLISHED INFRASTRUCTURE:

- Cover **1,000** sites across **90** countries –include **multiple supranational facilities** and **more than 120** military installations.
- For over **40** years, we have built a sophisticated infrastructure capable to support global and regional programs and projects of any size and scope.

TYPES OF MEDICAL SUPPORT TO GOVERNMENT SECTOR ORGANIZATIONS

AEROMEDICAL EVACUATION

- Dedicated air ambulances or medical escorts on commercial flights, as recommended by medical directors

EXPEDITIONARY CLINICAL CARE

- Deployed turnkey medical solutions (infrastructure, medical equipment and supply, clinical staff) where organic military medical capability is unavailable

GARRISON CLINICAL CARE

- Medical services for military personnel and families, allowing military medical professionals to focus on combat medical care

COORDINATION OF CARE THROUGH NETWORK PROVIDERS

- Arranging care for permanent party or temporary duty personnel through vetted, credentialed local healthcare providers

OUTREACH/COMMUNITY ENGAGEMENT

- Supporting national “soft power” objectives to improve public health and enhance the capabilities of partner force medical personnel

Disaster Response & Refugee/Migration & Post Conflict Support

Rapid Emergency Response Teams: Pre-positioned staff & equipment ready to deploy

Emergency & Primary Medical Care: 24/7 healthcare for victims and responders

Onsite Medical Facilities: From field clinics to full-service hospitals

Mental Health & Crisis Support: Counseling for responders and affected communities

Aeromedical Evacuation & Mobile Teams

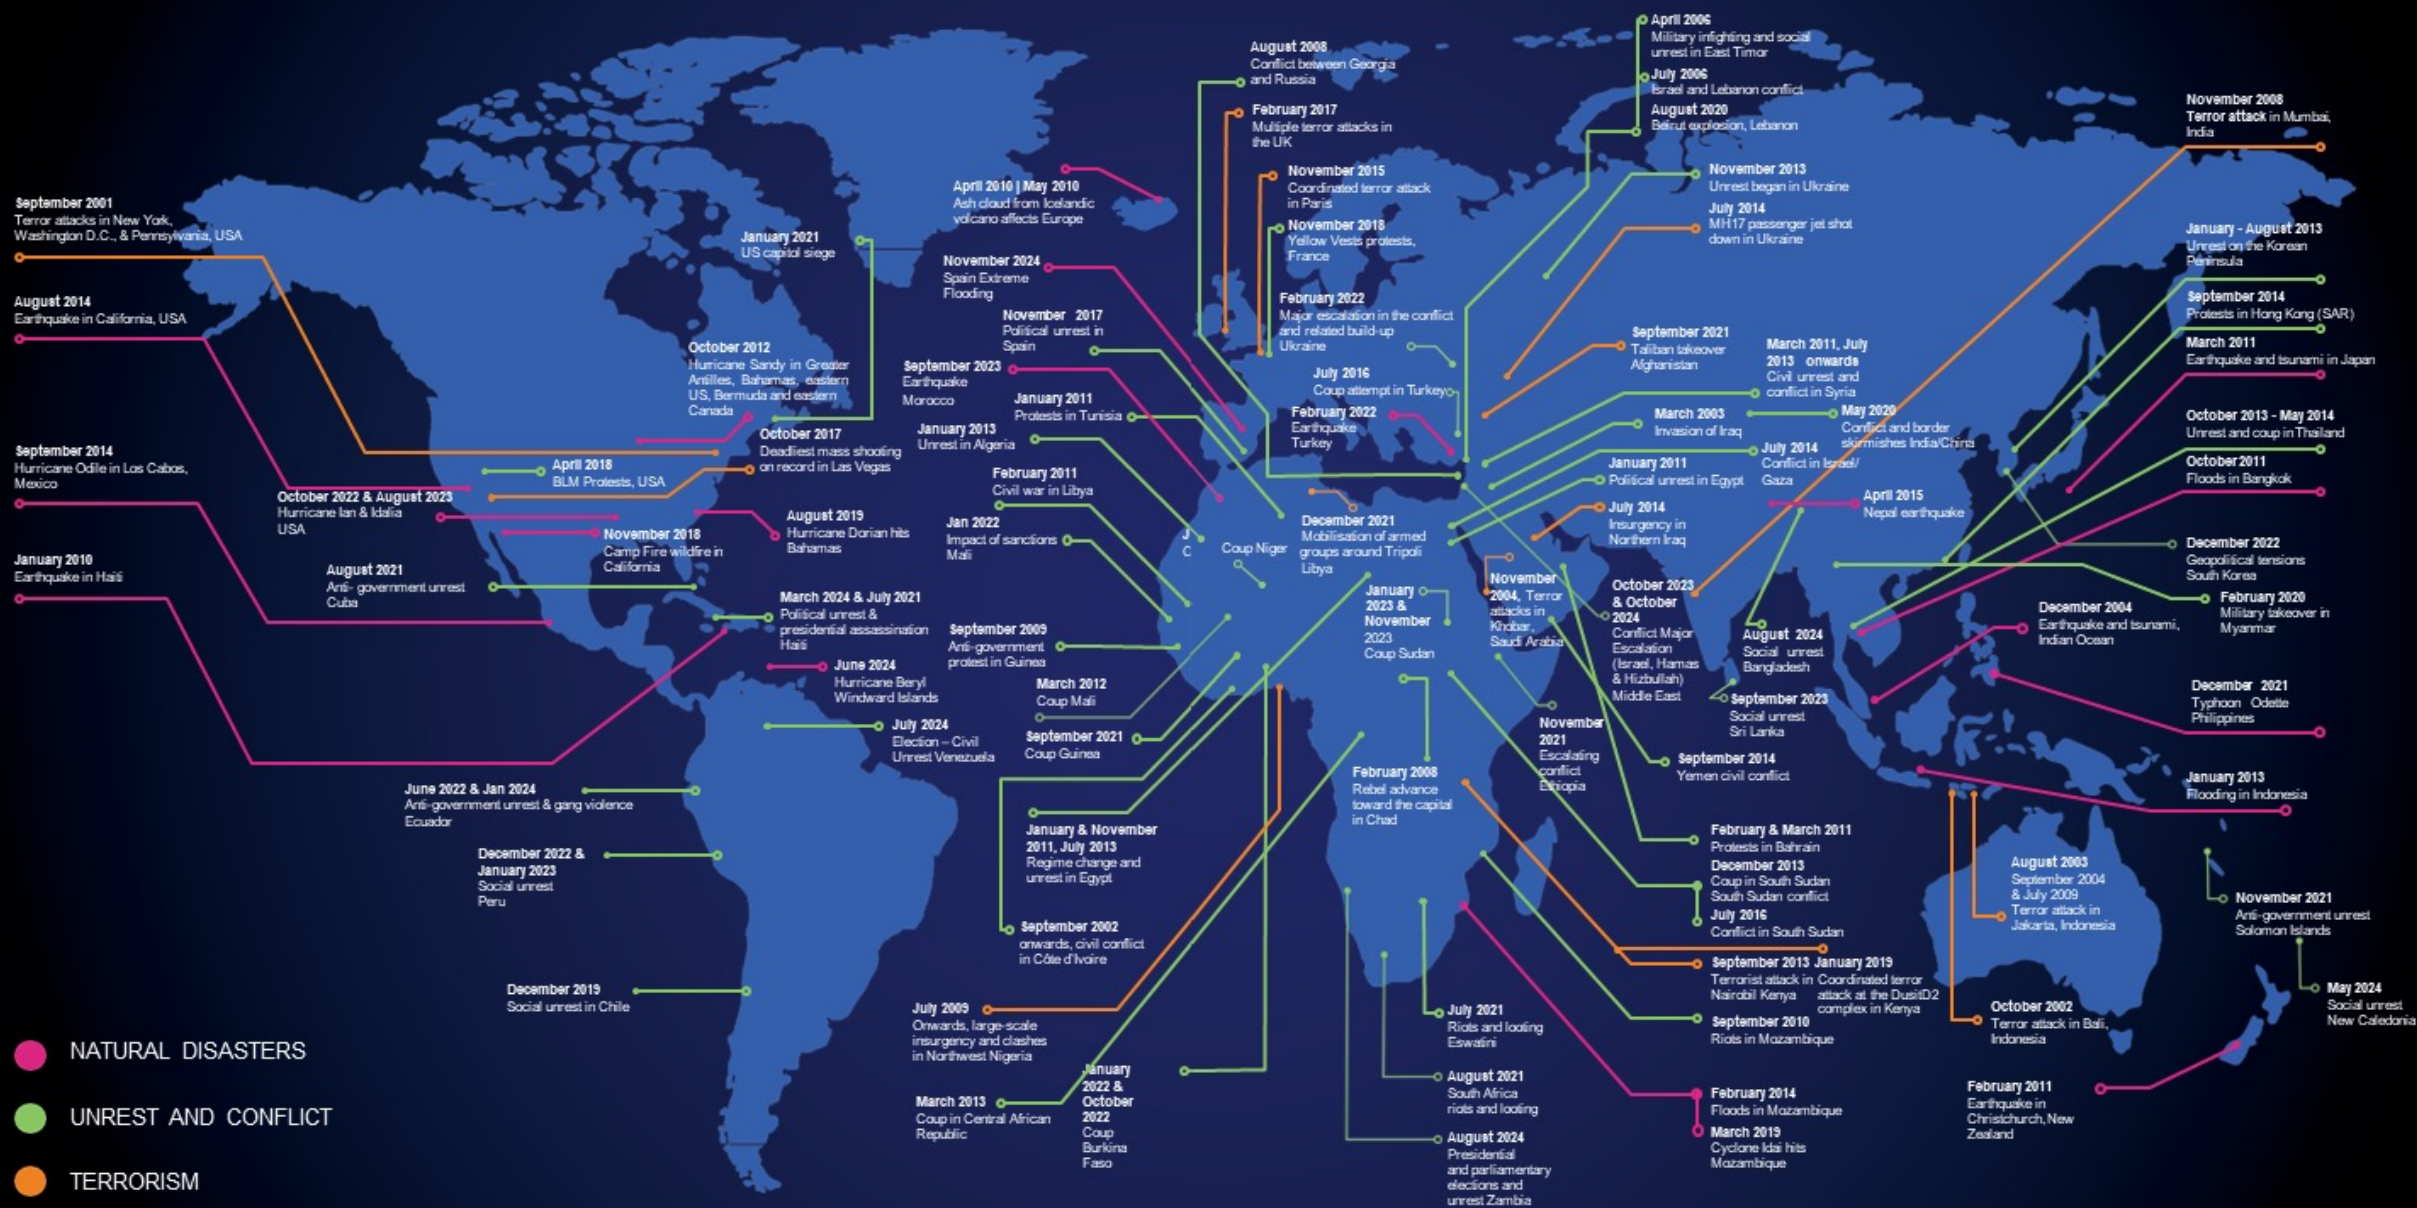

Public Health & Disease Prevention

Medical Logistics & Supply Chain

40 YEARS OF MANAGING CRISES

Security escalations that were supported by International SOS' evacuation expertise and assistance.
